SUMMARY

Full stack developer who builds and ships cross-platform mobile apps and web products end to end, from React Native and React front ends to Node.js APIs and databases. I have released apps to the App Store and Google Play and shipped production websites, with a focus on clean architecture, reliable APIs and polished user experience.

TECHNICAL SKILLS

Mobile	React Native, Expo, TypeScript, JavaScript, REST API integration
Web	React, Vite, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS
Backend & Data	Node.js, Express.js, MongoDB, PostgreSQL, Supabase, authentication & access control
Tools	Git, GitHub, Vercel, Figma, Play Console, App Store Connect

SELECTED PROJECTS

Culinari — Recipes & food creators platform (Mobile + Web) **App Store** · **Google Play** · **theculinari.com**

- Built and released a cross-platform recipe app on iOS and Android with a personalised feed, trending dishes, reels, long-form recipe videos and creator articles.
- Implemented step-by-step recipes, saved collections, creator follows and subscriptions, plus the matching responsive web app with a desktop sidebar layout and mobile bottom navigation.

Praci — Workforce & task management (Mobile + Web) **App Store** · **Google Play** · **praci.io**

- Developed the worker mobile app for attendance tracking, a daily dashboard and a team shift calendar, released on both stores.
- Built the marketing website explaining rota, timesheets, payroll and compliance to staffing agencies and their clients, with a clear demo-request flow.

Appzo — AI helpdesk & CRM (Android) **Google Play**

- Built mobile screens for deals, tasks and contacts for a platform that centralises WhatsApp, voice and email conversations for small teams.

Manzo — Flight booking (Mobile + Web) **Google Play** · **manzo.com.ng**

- Developed a mobile-first flight booking experience for searching routes, reserving seats and managing trips, with a conversion-focused companion website.

LetsGrow — Shopping app (iOS) **App Store**

- Built a product shopping app covering electronics, fashion and curated collections, in collaboration with a mentor.

Pluritongues — Language learning app (iOS) **App Store**

- Built discovery, tutor booking and learning flows connecting students with professional native-speaking tutors.

Websites — Full-stack developer **Live on the web**

- Teamflow (HR & operations SaaS site), Burger Box (restaurant menu & booking), Golden Pearl Consulting (learning hub), Upscalestrategy (brand site) and Dara-afrik (non-profit site), built with React and Vite.

EDUCATION

AltSchool Africa — School of Engineering (Alumnus) 2025

Vephla University — Software Development Program 2023
